About Adibatla Neighbourhood

Adibatla is located very close to Outer Ring Road (ORR). Land price in Adibatla neighbourhood has been growing steeply because the government has provided massive land for IT sector, Aerospace projects and the ancillary companies. The expected employment from TCS, Cognizant and Aerospace SEZ is set to touch 75,000. In addition, government has proposed ITIR Zone and Electronic City in this corridor. If Madhapur was a happening thing in late 90's and Gachibowli in early 2000's, then Adibatla neighbourhood is the happening thing now.
